Short title	1. This Act may be cited as the Agricultural Products (Control of Movement) Act.
Interpretation	2. In this Act, unless the context otherwise requires— “agricultural products” includes livestock and products derived from livestock but does not include meat, hides or skins, or horn or bone; “Minister” means the Minister for the time being responsible for commerce.
Minister may control movement of agricultural products	3. Order to specify period	4. Every order made under section 3 shall specify the period during which it is to remain effective and that the Minister may, after consultation as provided in section 3, by order published in the <i>Gazette</i> , extend the period of an order for such further period or periods as he may think necessary.
