FIDIC Conditions forContracts 2nd Edition (2017)

The FIDIC Condition of Contract for Construction (2nd ed., 2017) is internationally recognised standard forms of contract used in the construction industry. It provides a balanced framework for managing risks, responsibilities and obligation between employers and contractors.

Key Contributions

- Clear allocation of risks and responsibilities
- Standardised contract terms
- Supports effective project management
- Widely used in infrastructure and construction projects globally, including in Tanzania

CASE OF INTEREST

Cifation: Pesapal Tanzania Limited v Capture Tanzania Adventure Limited (2026] TZHC 5598 (25 September 2026).
Subject: Taxation

Key Legal Issues

1. Whether the expression "costs of such taxation" in Order 48 of the Advocates Remuneration Order refers to the substantive taxed costs or only to the incidental costs of conducting taxation proceedings?
2. Whether the Taxing officer erred in law or principle by allowing costs of taxation where more than one sixth of the total bill had been disallowed, thereby engaging the consequence in Order 48
